

Serial No. 10/811,855
Amdt. Dated October 22, 2004
Reply to Office Action of July 22, 2004

Docket No. ALD-0001D2C2

Amendments to the Specification:

Please replace the original paragraph beginning at page 21, line 17 and bridging page 22, with the following amended paragraph:

The mapping between channel numbers and frequencies can either be performed in microprocessor circuitry 412a or TX unit 414. In other words the data signal sent to TX unit 414 from microprocessor circuitry 412a may either consist of channel numbers or frequency data. To transmit these frequencies, TX unit 414 must have an associated antenna 414b. The TX unit 414 may be configured for point-to-point communication.
